Tailwind

Bootstrap

Materialize

Bulma

Git

Postman

GraphQL

Docker

Jira

EXPERIENCE

- 2022 - **SSR Frontend Web Developer** · Siete Ideas actual
Develop and maintain web applications using Angular. Implement responsive and attractive user interfaces, create reusable components, and integrate RESTful services. Conduct unit and integration testing, maintain the application, and manage production deployments.
- 2023 - **SSR Frontend Developer** · Event Loop Club actual
I am part of the founding team of this personal project developed with a group of colleagues. I serve as a semi-senior Angular developer, contributing to the design and development of modern and efficient web applications. My focus includes building reusable components, integrating RESTful services, and performing unit and integration testing to ensure product quality. Additionally, I collaborate on the planning and execution of technical strategies to drive the project's growth.

EDUCATION

Faculty of Exact Sciences, Unicen.

2020 - (2023 - On Hold) | Bachelor's Degree in Systems Engineering, Associate Degree in Information Technology Application Development"

2022-2022 | ReactiveX - RxJs

- Prof.: Fernando Herrera | ID de la credencial: UC-bfded070-8d6f-40be-a6fd-caf49ffeb905

2021-2021 | Angular Avanzado

- Prof.: Fernando Herrera | ID de la credencial: UC-2c6964a4-747e-483d-8c8c-54d62314aff3

2020-2020 | Angular: De cero a experto

Prof.: Fernando Herrera | ID de la credencial: UC-51a2d39c-bf96-4840-8689- c44a45eef2dd
