

Luca D. Mendoza

Senior Front-End Engineer

Specialized in Angular architecture, scalable front-end systems, and product-oriented engineering.

About Me

I'm Luca Mendoza, a Senior Front-End Engineer with over five years of experience developing web applications with Angular. I started programming in 2019 with personal projects and online training. I then studied at the Faculty of Exact Sciences (Unicen), focused on web development. In 2022 I began my professional experience at Siete Ideas, working with Angular.

I focus on maintainable architecture, performance, and sound engineering practices. I currently lead independent projects and contribute to high-impact frontend development. I'm based in Tandil, Argentina, and work remotely with international teams. I enjoy hiking and creative projects.

Professional Experience

Co-founder & Full-Stack Lead Engineer · XTECHARG

2024 - Present · Professional Independent

Scalable B2B SaaS platform that automates business processes and facilitates direct commercial transactions. Designed and implemented the architecture from scratch: Angular 19 Standalone, NestJS, PostgreSQL, TypeORM, OAuth2 + JWT, NgRx, SSR, Docker, CI/CD, payment integration (Mercado Pago, CoinPayments), and an in-app conversational assistant with OpenAI. Lead the development team, technical strategy, and code quality through thorough testing.

Co-founder & Frontend Engineer · Event Loop Club

2023 - Present · Professional Independent

Real-time ticketing platform for producers to publish and manage events. Frontend lead with Angular (migration to Angular 19 Standalone), SSR, reusable components, NgRx, REST integration, Google APIs authentication, and collaboration with design and backend. Application in production.

Frontend Developer · Siete Ideas

2022 - 2026 · Full-Time

Develop and maintain large-scale web applications with Angular. Platform modernization with Fuse template; migrations (Angular 9 → 11 → 18 Standalone). Responsive interfaces, reusable components, RESTful integration, unit and integration testing, and production deployments.

Skills

Frontend: AAngular, TypeScript, RxJS, NgRx, HTML5, CSS3, JavaScript, Tailwind CSS, Angular Material, SSR (Angular Universal)

Backend y APIs: NestJS, Node.js, Express.js, TypeORM, PostgreSQL, GraphQL, REST, OAuth2, JWT

DevOps y tools: Git, Docker, Dokploy, CI/CD (GitHub Actions), DBeaver, Postman

Testing: Jasmine, Karma, Jest

Collaboration: Figma, ClickUp, Jira, Trello, Scrum

Integrations & other: Mercado Pago, Stripe, OpenAI API, Google APIs, Firebase, Swiper, Fuse Template

Education

Faculty of Exact Sciences, Unicen

2020 - 2023

Bachelor's Degree in Systems Engineering · Associate Degree in Information Technology Application Development

Certifications

- **2026 — NestJs + Reportes: Genera PDFs desde Node · Udemmy**

certificate: <https://www.udemy.com/certificate/UC-f8066510-989d-4e09-ae42-c2e217721892/>

- **2026 — OpenAI: Ejercicios y asistentes con Angular + NestJS · Udemmy**

certificate: <https://www.udemy.com/certificate/UC-bcbf2846-ce9b-4c06-9764-568fea9b6e99/>

- **Marzo 2024 — Nest + GraphQL: Evolucionar tus APIs · Fernando Herrera**

certificate: <https://www.udemy.com/certificate/UC-df086925-6301-42e0-b95a-68c79514f01d/>

- **Abril 2023 — Node: De cero a experto · Fernando Herrera**

certificate: <https://www.udemy.com/certificate/UC-65273f76-3ae8-42c7-a8e3-f0baf0a6354f/>

- **Septiembre 2022 — ReactiveX - RxJs: De cero hasta los detalles · Fernando Herrera**

certificate: <https://www.udemy.com/certificate/UC-bfdded070-8d6f-40be-a6fd-caf49ffeb905/>

- **Noviembre 2021 — Tienda Online: NodeJS + MongoDB + Stripe + GraphQL - MEAN+G · Anartz Mugika Ledo**

certificate: <https://www.udemy.com/certificate/UC-b378f024-a600-4b74-930a-e21a6e834b2a/>

- **Octubre 2021 — Desarrollo web. CSS desde cero. Edición 2020 · Adrian Heras**

certificate: <https://www.udemy.com/certificate/UC-258e5430-9057-4ef7-aecd-57f01a0726ab/>
